The #1 choice for **smart living** in Dubai.

Enema Smart Living (ESL) is a Dubai-based smart-home systems integrator. We design, engineer and deliver KNX automation, intelligent lighting, building management and security for the region's most demanding residences and developments.

From a single penthouse to an entire tower, we turn buildings into responsive, effortless environments — unifying light, climate, media, shading and security under one intuitive interface, and standing behind every installation with local, long-term support.

- ✓ **KNX-certified engineering**
- ✓ **End-to-end: design through handover**
- ✓ **Trusted by leading UAE developers**

SUPPORT & CARE

Our **vision** & mission.

01 OUR VISION

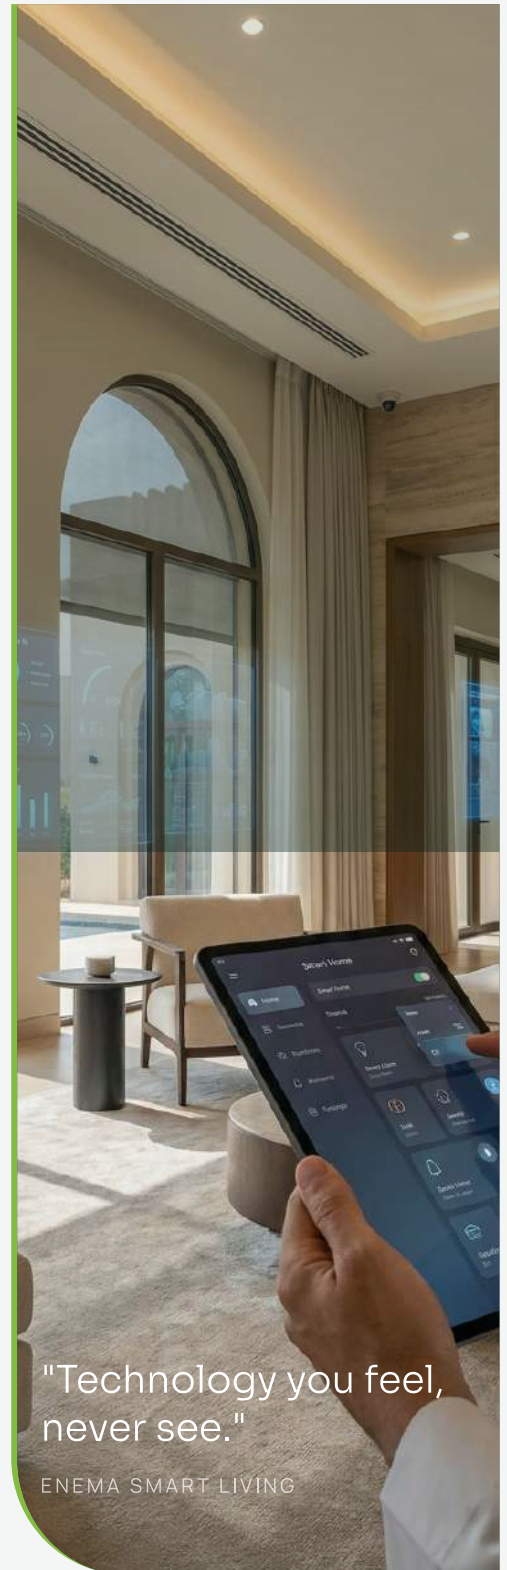

Make intelligent, sustainable living the standard in every UAE home.

A future where technology recedes into the architecture — where light, comfort, energy and security simply respond to the people who live there.

02 OUR MISSION

Engineer flawless smart-home experiences, supported for life.

KNX-certified engineering, premium hardware and meticulous project management — systems that are reliable, elegant and effortless to live with.

Precision

Engineered to the detail.

Reliability

Built to run for years.

Innovation

Open, future-ready tech.

Discretion

Private by design.

One partner, **every system.**

From KNX automation and lighting to full MEP contracting, ESL designs, installs and maintains every system in the building — coordinated, and delivered by one accountable team.

ONE TOUCH, TOTAL CONTROL

01

Home Automation

One interface for light, climate, media, shading and access — scene control from panels, mobile and voice.

KNX

SCENES

VOICE

02

Lighting Control

Architectural and mood lighting: dimming, tunable white, circadian schedules and dynamic facade effects.

DALI

DIMMING

CIRCADIAN

03

Building Management

Centralised monitoring of energy, HVAC, water and utilities for efficiency and insight across the building.

ENERGY

HVAC

METERING

04

Security & Surveillance

Integrated CCTV, video intercom, access control and alarms — unified with and monitored through the smart home.

CCTV

ACCESS

INTERCOM

Energy Management
METERING & EFFICIENCY

DMX Facade Lighting
DYNAMIC EXTERIORS

Lighting Design
& 3D RENDERING

ELV Maintenance
SERVICE & AMC

Full MEP contracting, under one roof.

Beyond smart systems, ESL delivers complete MEP scopes — mechanical, electrical and plumbing — through main and sub-contracts, then keeps them running with Annual Maintenance Contracts.

01

HVAC

Heating, ventilation & air-conditioning — design, supply, install and commissioning.

02

Electrical

LV distribution, wiring, panels, containment and lighting power installations.

03

Plumbing & Drainage

Water supply, sanitary and drainage systems, pumps and fit-out.

04

BMS

Building management — HVAC, energy and plant monitoring and control.

05

Low-Current Systems

LCS — structured cabling, networks, AV and IT backbone infrastructure.

06

ELV & Fire

CCTV, access, intercom and fire-alarm life-safety ELV systems.

Annual Maintenance Contracts (AMC)

We run AMC programmes for MEP and ELV installations — planned preventive maintenance, statutory checks and 24/7 reactive call-out — keeping buildings efficient and compliant through their full lifecycle.

Light, choreographed.

Lighting is where a smart home is felt first. ESL's lighting management brings every fitting — interior, architectural and facade — under one intelligent, scheduled system.

- ✓ **Scheduling & scenes** — one-touch moods for morning, dining, cinema and away.
- ✓ **Dimming & tunable white** — warm to cool, smoothly, on every circuit.
- ✓ **Occupancy & daylight sensing** — light that follows people and saves energy.
- ✓ **Circadian rhythms** — daylight-matched tones for wellbeing.
- ✓ **Facade & landscape lighting** — dynamic, colour-changing exterior effects.

Central lighting management

From a single living-room scene to a tower's entire illuminated facade — scheduling, dimming, colour and occupancy in one system, remotely managed.

Why Dubai chooses **ESL**.

Certified expertise

KNX-certified engineers working to international best practice.

End-to-end delivery

Design, supply, install, program and support — one accountable team.

Developer-trusted

Chosen for Emaar- and Damac-calibre residences and towers.

Premium partners

Best-in-class European and global hardware brands only.

Local support, 24/7

A Dubai-based team on call for rapid response and care.

Future-proof

Built on the open KNX standard — scalable and upgradable for years.

From brief to handover — **and beyond.**

01

Consult & Design

We study the brief, lifestyle and architecture, then produce the system design and a clear, itemised proposal.

02

Engineer & Specify

Detailed engineering, load schedules, hardware specification and drawings coordinated with your M&E trades.

03

Install & Integrate

First- and second-fix wiring, device installation and clean integration with every connected system.

04

Program & Commission

KNX programming, scene creation, testing and full commissioning against the approved design.

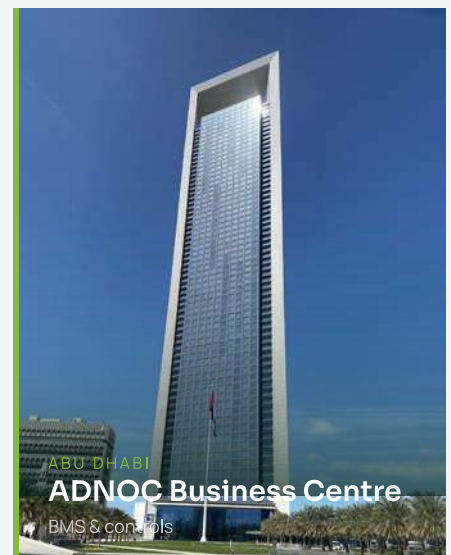

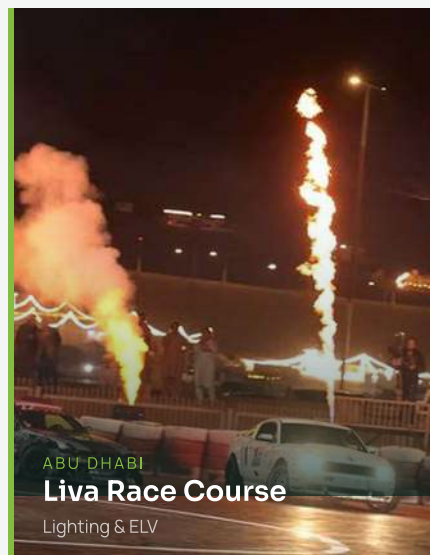

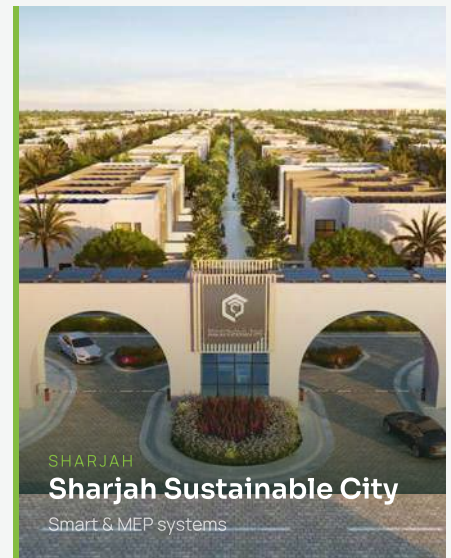

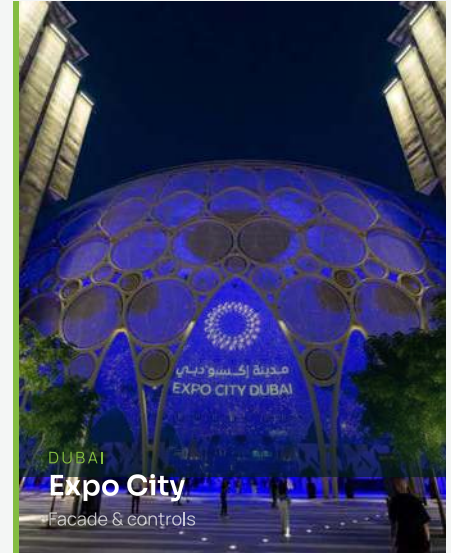

05

Handover & Support

Client training, full documentation, warranty and ongoing 24/7 aftercare, monitoring and updates.

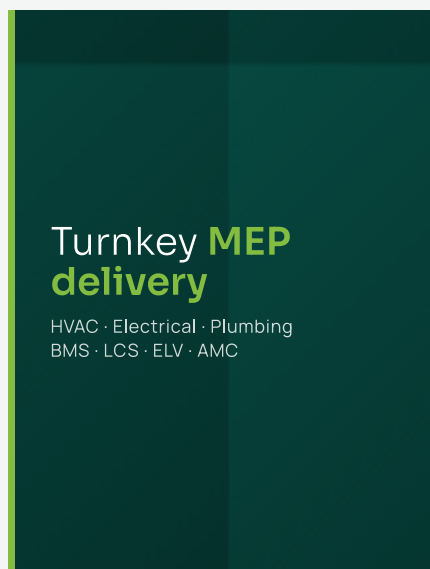

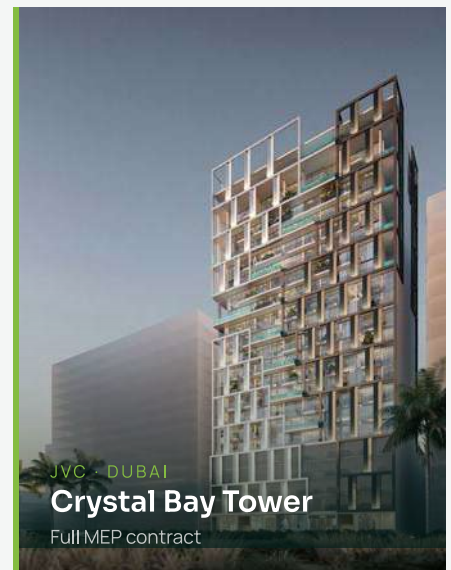

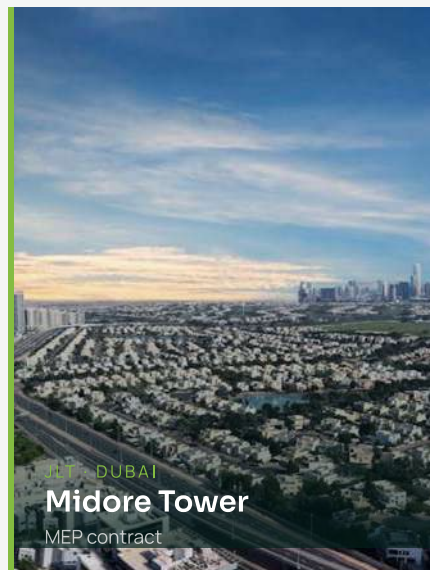

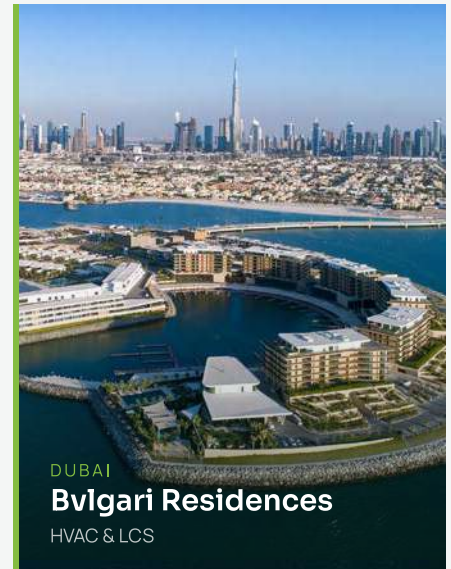

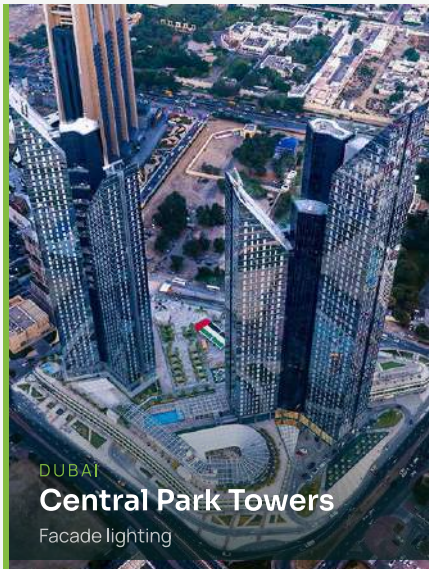

Currently **on site.**

A selection of projects ESL is actively delivering across the Emirates — smart systems, lighting and MEP.

Completed **work.**

Delivered turnkey — facade lighting, smart systems and full MEP contracts across the UAE.

In good **company.**

Specified by the region's leading developers, and built with the world's leading smart-building brands.
